

The Natural Resources Conservation League
of Victoria invites you to a forum on:

IMPACTS OF CLIMATE CHANGE ON RURAL LANDSCAPES

Monday November 28 2016, 10am-4pm

This forum will spell out the science of climate change and how its impacts are shaping our rural landscapes and communities. You will hear from leading researchers and practitioners who will highlight the climate trends for rural Victoria and the impacts on our agricultural industries and biodiversity. Responses to climate change will be featured including case studies of adaptation by rural councils and the application of Indigenous knowledge of climate change to adaptation planning. There will be plenty of opportunities for discussion and engagement.

Details of presenters overleaf.

VENUE:

Garden Room, Narmbool Function Centre
Horsehill North Rd
Elaine VIC 3334

KEYNOTE PRESENTATIONS

On the Frontline: Climate Change & Rural Communities (remote presentation)

Lesley Hughes
Distinguished Professor of Biology and Pro Vice-Chancellor (Research Integrity & Development),
Macquarie University

Adaptation At Local Government Level - Rural Case Studies

Alianne Rance
Loop and Co Consultancy

Overview Of Changing Climate Patterns In Rural Victoria

Karl Braganza
Manager Climate Monitoring,
Bureau of Meteorology

Indigenous Knowledge And Climate Change Introduction On The In-Depth Aboriginal Knowledge Of Changing Climates

David Jones
Professor Landscape Architecture & Planning
School of Architecture & Built Environment,
Deakin University

Getting Climate Projection Information To The People Who Need It

John Clarke
Team Leader Regional Projections
CSIRO Climate Science Centre

Application Potentials Of Aboriginal Knowledge To The Adaptation Planning For Climate Change Impacts

Phillip Roös
Senior Lecturer in Ecological Design & Sustainability
School of Architecture & Built Environment,
Deakin University

Impacts Of Climate Change On Agriculture Land Use Changes- Trends And Issues

Prof Snow Barlow,
Faculty of Veterinary and Agricultural Sciences,
University of Melbourne

RSVP WITH DIETARY REQUIREMENTS BY NOVEMBER 14 2016 TO AH@NRCL.ORG.AU

ABOUT THE NRCL

The NRCL is an established not for profit working in the conservation field. Our focus is on promoting ideas and actions that value, protect and enhance our environment through the sustainable management of our natural resources. We seek to do this through education and building the capacity of community based organisations such as Landcare.

This forum is part of a continuing series organised and/or sponsored by the NRCL in partnership with a range of organisations. The NRCL acknowledges the support of the Australian Meteorological and Oceanographic Society (AMOS) in the organisation of this forum.

Special thanks to our supporter/partner
